Critical thinking, independent learning, avoiding plagiarism... These are all academic study skills students need to develop as they move into post-16 studies at school, and on to higher education. **Study Skills Success** helps not just with the skills, but also with the English that underpins them.

Each unit begins with a video introduction where a teacher explains a challenge learners will face. In the Speaking unit, for example: "You'll have to speak to tutors; you'll have to speak in seminars; and you'll certainly have to speak to other students about work — and socially." The unit then takes learners through a series of teaching points and interactive activities in four areas:

- 1 Speaking out
- 2 Giving opinions
- 3 Giving a presentation
- 4 Discussing ideas

Students conclude by completing a learning record. The other nine units follow a similar progression.

Throughout Study Skills Success, there is extensive use of authentic texts: articles, websites, book extracts, a BBC lecture... And learners can download worksheets for use away from the computer.

Studying in English is a real challenge for many students. Study Skills Success can make life easier by helping them to develop more effective and efficient study strategies. For teachers, this program is an ideal source of supplementary activities for pre-session courses, or for use as a self-access resource.

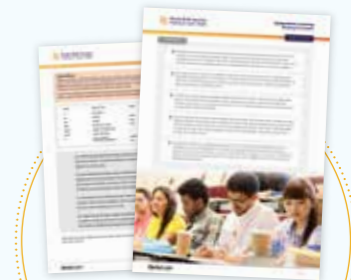

Adopted globally by the **British Council**

Mobile friendly

2018 upgrade

- ✓ Runs on any device
- ✓ Better user experience
- ✓ New audio transcripts and worksheets

Worksheets included

Just some of the academic study skills your students will develop with Study Skills Success
